## WORK EXPERIENCE

### Frontend Developer

#### WeatherWalay

11/2023 - Present

WeatherWalay is a registered company working towards a "state-of-the-art" weather forecasting system in Pakistan.

- Integrated RESTful APIs to enable dynamic content updates, reducing data retrieval time by 25%.
- Contributed to the migration of legacy code to modern frameworks, streamlining the development process and reducing bug reports by 15%.
- Participated in code reviews and mentoring sessions, fostering a collaborative team environment and improving code quality across projects.
- Developed user-friendly interfaces using React and Next.js, improving page load times by 30% and enhancing user engagement.

### Frontend Developer

#### Green X Solutions

01/2023 - 06/2023

A UK-based company focused on delivering intelligent solutions and empowering individuals to achieve their professional goals.

- Worked closely with designers to create responsive layouts, leading to a 20% boost in mobile user satisfaction.
- Collaborated with cross-functional teams to gather requirements and deliver features ahead of schedule, improving project turnaround time by 15%.
- Optimised application performance by refactoring existing code, resulting in a 50% reduction in load times.
- Converted design mockups into high-quality, interactive web pages enhancing user engagement.

## EDUCATION

### Bachelor of Science (BS), Information Technology

#### Bahria University Islamabad

01/2019 - 05/2023

- Object Oriented Programming
- Data Structures and Algorithms
- Web Development
- Artificial Intelligence

## SKILLS

CMS (Strapi)

## RECENT PROJECTS

### Weatherwalay Web App (07/2024 - 08/2024) [↗](#)

- Integrated within the Uptcl Ufone app via webview. A key revenue source for Weatherwalay, developed using the latest Next.js, Chakra UI, and React Query for API management. Followed best practices to ensure scalability, performance, and maintainability.

### Weatherwalay Website (04/2024 - 06/2024) [↗](#)

- Upgraded Weatherwalay's website. A platform for showcasing key products, weather stations, business solutions, GIS maps, and career opportunities. Developed using the latest Next.js and Chakra UI, with a shift from React Context to Zustand for more efficient state management. Accurately converted Figma designs into code, integrating animations with Framer Motion.

### Weatherwalay B2B Portal (01/2024 - 03/2024) [↗](#)

- Developed a B2B portal, a key revenue source for Weatherwalay, allowing users to view hourly and weekly weather forecasts, access GIS maps of weather stations, and retrieve weather reports for specific locations. Utilized Vite, Chakra UI, and Zustand for global state management to ensure high performance and a seamless user experience. Visit it on **Behance** [here](#).
